DECLARATION OF RICARDO DAVIS

RICARDO DAVIS hereby declares as follows:

1. I have personal knowledge of all facts stated in this declaration, and if called to testify, I could and would testify competently thereto.
2. I am a registered Georgia voter residing at [REDACTED]
[REDACTED]
3. I am a member of the Coalition for Good Governance.
4. I will be voting in the March 24, 2020 primary election; any other elections that could be scheduled in the first quarter of 2020; and plan to vote in all future elections for which I am eligible to vote. I generally vote in every election of which I am aware that I can participate.

5. I plan to vote by absentee mail ballot in all upcoming elections, including the March 24, 2020 election, because paper ballots for hand marking will not be issued at the polling places in Cherokee County on Election Day.
6. As an Information Technology professional I understand that Georgia's BMD machines are hackable; the ballot printed by BMDs may not record my true intended votes; and because a BMD would encode my vote in a printed barcode, I would not be able to verify my vote before casting it. Therefore, I will choose mail-in ballots as my typical method of voting.
7. I am also aware that there have been systemic problems with the electronic pollbooks in the most recent Georgia elections, which resulted in voters being sent to the wrong polling places, or forced to vote a provisional ballot, or wrongly being denied a ballot all together. For this reason, too, I will continue to vote using a mail-in ballot.
8. I would much prefer to vote in person every Election Day so that I can vote with my community in a shared local civic experience, and so that I have the benefit of the latest news and information about candidates and contests. In my role as Chairman of the Constitution Party of Georgia, I would particularly like to be visible to our candidates and members voting on Election Day at my local precinct, but presently, the electronic voting

systems offered create too much risk of my vote being inaccurately recorded.

9. I am the State Chairman of the Constitution Party of Georgia, a conservative political party and, after researching Georgia's new BMD voting system, I am encouraging members and supporters to vote by mail in the upcoming elections, despite the disadvantages. Voting by mail at least creates a ballot that voters can verify before casting and preserves an auditable record of the voters' intent, which Georgia's BMD machines cannot do.
10. In my estimation, encouraging voters to vote on auditable paper ballots helps improve voter confidence and turnout. Over the years Georgia voters have heard valid reports about Georgia's unauditable elections and now I believe Georgia is trading one unauditable electronic touchscreen voting system for another. With this new BMD system, Georgia voters are rightly concerned that they will not be able verify their own BMD-generated votes, and that any manipulation of the BMDs would be very difficult or impossible to detect. This rightful concern about the integrity of the elections may discourage them from voting at all.
11. Given my technical familiarity with the security risks of Georgia's voting system, I am aware that paper ballots alone do not assure that ballots are counted accurately. Optical scan machines cannot be assumed to be any

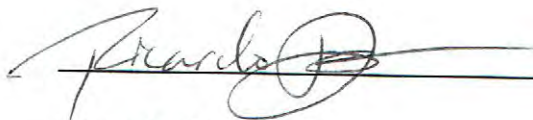

more accurate than BMD machines, as they are just as subject to hacking and erroneous programming. Therefore hand marked paper ballots counted by optical scanners must be thoroughly audited to confirm the reported outcomes are accurate.

12. Additionally, as an Information Technology professional, I understand that many of the normal function of computerized systems, like logging and timestamping actions and files, could easily save enough metadata to thwart the secrecy of a voter's ballot. I understand that keeping a ballot secret would be difficult in any computerized system, and I am specifically concerned that the Dominion BMDs and optical scanners which the State intends to use are not properly designed to protect voters' secret ballots.
13. As Chairman of the Constitution Party of Georgia, I am keenly aware of that some voters voting for our candidates treasure the absolute secrecy of their vote. It is my experience that voters are frequently pressured not to vote for "third party candidates" who do not have a probability of winning. It is important to our party, our candidates and our voters that the votes cast be absolutely secret and that no hacker or insider can pierce the absolute anonymity of the vote. It is of critical interest to our party and to me that our members and our voters know with confidence that they may freely cast a

vote for their preferred candidate and never be called on to account for that choice.

I declare under penalty of perjury, in accordance with 28 U.S.C. § 1746, that the foregoing is true and correct.
